

Farewell to .yu domain

The registration of new .rs Internet domains in Serbia began on **10 March 2008**. If your company or organisation has not yet migrated to the .rs domain, and still has an active .yu domen, this information is of vital importance to you.

EXTENDING .YU DOMAIN REGISTRATION

You will be able to renew the registration of existing .yu domains from **3 November 2008** to **2 March 2009**. After this date, .yu domains which are not renewed during this period will stop functioning online.

The additional period for renewing the registration of .yu domains will begin on **3 March 2009** and end on **30 April 2009**. If a .yu domen is renewed during this additional period of time, it will be reactivated on the Internet. Remaining .yu domains, which are not renewed, will be permanently deleted from the register on **4 May 2009**.

Maintaining the .yu register of domain names, as well as providing information on .yu domains on the Internet will end on **30 September 2009**, regardless of the renewal date. **On the very day, .yu domains will stop functioning on the Internet!**

EXAMPLES:

Unless your company renews the registration of www.companyname.co.yu until 2 March 2009, your Website and e-mail will stop functioning on the Internet as of this date.

In case your company decides to extend the registration of www.companyname.co.yu until 30 April 2009, your domain will be reactivated on the Internet, and your Website and e-mail will be active until the last day of using the .yu domain, i.e. 30 September 2009.

If, however, you do not renew the registration of your www.companyname.co.yu until 30 April 2009, all data will be permanently deleted on 4 May 2009.

For all information regarding the registration of Internet domains, please contact any ISP, i.e. registrar of .rs domains across Serbia. The list of all registrars can be found at www.rnids.rs.

The Serbian National Register of Internet Domain Names (RNIDS) is an expert, non-governmental, non-profit organisation founded with the aim to manage the new national Internet domain .RS in order to satisfy the general interest of all citizens of Serbia, complying with the principles of quality, efficiency, independence and transparency.
