SUBJECT: Letter of Support for Serbian IDN ccTLD Request

This letter is to confirm that the Ministry of Telecommunications and Information Society of the Republic of Serbia supports the IDN ccTLD Fast Track request to ICANN for the following string:

<срб>/<xn--90a3ac>

and, if the above string does not successfully pass the first round of evaluation by the DNS Stability Panel, the following alternative string:

<србија>/<xn--80abv4ae51>

It is further confirmed that both U-strings are written in Serbian Cyrillic script, which is in the official use in the Republic of Serbia.

It is further confirmed that the strings are being sought through the ICANN IDN ccTLD Fast Track Process by Serbian National Register of Internet Domain Names (RNIDS), which is willing to accept the conditions under which the string will be available, as outlined in the Final Implementation Plan for the IDN ccTLD Fast Track Process.

Respectfully Yours,

MINISTER

Jasna Matić
