

Pursuant to Article 10 of the Statute of the Foundation „Register of National Internet Domain Names of Serbia“, the Conference of Co-founders of the Foundation "Register of National Internet Domain Names of Serbia", at its sessions of 28th May and 24th December 2011 in Belgrade, has passed the following:

**GENERAL TERMS
FOR THE REGISTRATION OF A CYRILLIC COUNTRY CODE TOP-LEVEL
INTERNATIONALISED DOMAIN NAME .cpб <xn--90a3ac>**

Subject of the General Terms

Article

1

The General Terms for the Registration of a Cyrillic Internationalised Internet Domain in the .cpб domain space (hereinafter: General Terms) prescribe the registration process and the use of an internationalised Internet domain in the .cpб domain space (hereinafter: .cpб domain), as well as the relationship between the Register of National Internet Domain Names of Serbia (hereinafter: RNIDS), as the administrator of the central register of the .cpб domain (hereinafter: .cpб IDN ccTLD registry) and users of .cpб domains (hereinafter: “registrants”) who register .cpб domains with RNIDS through accredited registrars of .cpб domains (hereinafter: “accredited registrars”).

Definitions of primary terms

Article

2

(1) *The Internet* is a global communications system comprising a large number of interconnected autonomous systems (networks), which exchange data using a common set of communications protocols (TCP/IP).

(2) *IP address* is a numerical identifier, defined as part of the IP protocol, which allows unique addressing of devices connected to the Internet.

(3) the *Internationalised Cyrillic Internet domain name* is a textual label which identifies a set of devices or Internet services, linking them into a single administrative and technical unit. A domain name consists of a series of alphanumerical segments, concatenated by dots, in line with the Internet standards RFC 1034, 1035, 1122, 1123 and 3596 and the standards which supplement or replace them. The label of a Cyrillic internationalised Internet domain name may contain numbers (0-9), letters of the Serbian Cyrillic alphabet (a-ш) and hyphens (-). A segment may not contain a hyphen at the start or at the end. A segment may not contain two consecutive hyphens in the third and fourth positions. All Cyrillic internationalised domain names must undergo a process called ASCII Compatible Encoding (ACE) which is described in RFC 3490. A segment of a Cyrillic internationalized Internet domain may contain a maximum of 63 ASCII characters after ACE.

(4) *The .cpб domain* is the internationalised Cyrillic Internet domain which is formed according to the rules given in point (3) of this article.

(5) *The Domain Name System (DNS)* is a base Internet service which translates domain names into IP addresses and vice-versa.

(6) *The .cpб IDN ccTLD* is the highest level domain in the DNS system, intended for the

registration of .cpб domain names, for the territory of the Republic of Serbia.

(7) *The .cpб IDN ccTLD registry* is the central database of .cpб domains registered within the .cpб IDN ccTLD, which is managed by RNIDS.

(8) *The WHOIS database of the .cpб IDN ccTLD registry* is a publicly accessible database of users of .cpб domain registered within the cpб IDN ccTLD registry.

Definitions of registrant, administrative and technical contact

Article

3

(1) A registrant is a person who, in accordance with the provisions of these General Terms, registers and uses a .cpб domain within the .cpб IDN ccTLD registry.

(2) A registrant may be a local or foreign individual or legal entity.

(3) An administrative contact is an individual, a citizen of the Republic of Serbia, or a legal entity with a registered office in the Republic of Serbia authorised to receive information from RNIDS significant to the registration on behalf of the registrant and to make changes to all information regarding the registration of the .cpб domain name on behalf of the registrant.

(4) A technical contact is an individual or legal entity authorised to make changes to technical information relating to the registration of a .cpб domain name (DNS server information and changes to the person appointed as the technical contact) on behalf of the registrant.

Definition of accredited registrar

Article

4

(1) An accredited registrar is a legal entity or sole trader with a registered office in the Republic of Serbia who has been granted authority by RNIDS to carry out .cpб domain registrations within the .cpб IDN ccTLD registry.

(2) An accredited registrar carries out the tasks of .cpб domain registration at the request of a registrant.

(4) The tasks of .cpб domain registration are: registering .cpб domain names, modifying .cpб domain name registration information, .cpб domain registration renewals, transferring .cpб domain between accredited registrars, transferring .cpб domain registrations, activating privacy protection for contact information for .cpб domains and revoking .cpб domains.

(4) The operation of accredited registrars is regulated in more detail by the General Terms of Operation of Accredited .cpб Domain Registrars and other regulatory documents of RNIDS.

Organisation of domain extensions of the .cpб IDN ccTLD registry

Article

5

(1) .cpб domains within the .cpб ID ccTLD registry are registered in the following five top-level and second-level domains:

- 1 .cpб – intended for all interested users;
- 2 .np.cpб – intended for business users;
- 3 .opr.cpб – intended for all other users who are legal entities;
- 4 .obp.cpб - intended for educational institutions and organisations;
- 5 .od.cpб – intended for users who are individuals
- 6 .ak.cpб (delegated) – intended for academic and research network of Serbia;
- 7 .ynp.cpб (delegated) – intended for state institutions of the Republic of Serbia.

(2) RNIDS may at a later date allow the registration of .cpб domains in other second-level domains within the .cpб IDN ccTLD registry.

(3) These General Terms do not cover the registration of second-level domains which have been delegated and other new second-level domains which may be delegated to third parties.

(4) RNIDS may be a registered domain holder within the .cpб IDN ccTLD and has the right to register or reserve .cpб domains for its own use and domains of special significance for the Republic of Serbia, as well as domains necessary for the stable functioning of Internet services.

Submitting an application to register a .cpб domain

Article

6

(1) RNIDS shall register a .cpб domain on the basis of a submitted application for the registration of a .cpб domain, in accordance with these General Terms.

(2) A registrant may register multiple .cpб domains within the .cpб IDN ccTLD registry

(3) A separate application for the registration of a .cpб domain is submitted for each .cpб domain name.

(4) In submitting an application for the registration of a .cpб domain name, the registrant explicitly acknowledges that he or she is familiar with the contents of these General Terms.

(5) RNIDS reserves the right to temporarily stop or limit the registration of a .cpб domain if deemed necessary to protect the technical and administrative functioning of the .cpб IDN ccTLD registry.

Registration information of .cpб domains

Article

7

(1) The registrant, when submitting a .cpб domain registration application, must provide accurate, full and current information about the registration of the .cpб domain.

(2) The registration details for .cpб domains are:

- if the registrant or administrative contact is an individual: name and surname, address, citizen's ID number, administrative and technical contact and information on the primary

and secondary DNS server for the .cpб domain name being registered;
- if the registrant or administrative contact is a legal entity or sole trader: business name, address, company registration number, tax number (optional), administrative and technical contact and information on the primary and secondary DNS server for the .cpб domain name being registered.

(3) The registrant must, for the duration of the registration of the .cpб domain, keep the DNS servers operational.

(4) If any of the .cpб domain name registration information changes, the registrant must immediately, at the latest within 15 days, via the accredited registrar, submit to RNIDS an application for amendment of the .cpб domain information.

(5) RNIDS may at any time verify the accuracy of .cpб domain name registration information by sending a message to the e-mail address of the registrant and technical contact, and it is the registrant's or administrative contact's duty to confirm the information within 15 days.

Declaration of good intentions and responsibility of the registrant

Article

8

(1) By submitting an application for the registration of a .cpб domain within the .cpб IDN ccTLD registry, or by accepting these General Terms, the registrant explicitly declares and certifies that, to the best of his or her knowledge and belief, the registration of the desired .cpб domain name does not infringe others' intellectual property rights or other subjective right, and that all information provided in the application is truthful and complete. The registrant also declares that the .cpб domain name is not being registered contrary to the principles of good faith, honesty and good business practice, and that the .cpб domain name will not knowingly be used contrary to these principles.

(2) RNIDS assumes no responsibility for any damages which may arise from the provision of incorrect .cpб domain name registration information as well as from the unauthorised or illegal use of a .cpб domain.

Registration and activation of .cpб domains

Article

9

(1) RNIDS carries out the registration of .cpб domain names on a first-come, first-serve basis.

(2) The registrant has the priority right to the .cpб domain he or she has applied to register the moment RNIDS receives his or her application to register a .cpб domain after which RNIDS issues confirmation that the .cpб domain registration application has been received.

(3) A .cpб domain is registered when RNIDS enters the .cpб domain in the WHOIS database for the .cpб IDN ccTLD registry.

(4) the WHOIS database for the . IDN ccTLD registry contains the following minimum information about each registered .cpб domain:

1 the .cpб domain name;

- 2 registration information for the .cpб domain;
- 3 date and time of registration of the .cpб domain;
- 4 date and time of expiry of the .cpб domain;
- 5 name of the accredited registrar responsible for the .cpб domain name.

(5) RNIDS must activate a .cpб domain at the latest within twenty-four hours from sending confirmation of receipt of the .cpб domain name registration application.

(6) The deadline in the previous paragraph may be extended in exceptional circumstances when RNIDS temporarily stops or limits the processing of .cpб domain name registration applications as outlined in article 6, paragraph (5).

(7) A .cpб domain is active when RNIDS enters the details from the WHOIS database into the DNS table of the .cpб IDN ccTLD registry and makes the table active on the primary DNS server.

Accessibility of information on registered .cpб domains

Article

10

(1) RNIDS shall always make the following information about registered .cpб domains within the .cpб IDN ccTLD registry available through the WHOIS database:

- 1 the .cpб domain name;
- 2 date and time of registration of the .cpб domain;
- 3 date and time of the last change made to the registration information of the .cpб domain;
- 4 date and time of expiry of the .cpб domain;
- 5 name of the accredited registrar responsible for the .cpб domain name;
- 6 current status of the .cpб domain name (active, deactivated, disputed, in arbitration, etc.);
- 7 DNS servers for the .cpб domain name

(2) The contact details for a .cpб domain are:

- 1 if the registrant is an individual: name and surname, address, administrative contact and technical contact;
- 2 if the registrant is a legal entity or sole-trader: business name, registered office, company registration number, tax number, administrative contact and technical contact.

(3) RNIDS shall make following minimum contact information for every registered .cpб domain name available through the WHOIS database as long as the registrant has not activated contact information privacy protection:

- 1 if the registrant is an individual: name and surname;
- 2 if the registrant is a legal entity or sole trader: business name, registered office and company registration number.

(4) RNIDS, on receiving a request with rationale, must provide any interested party with the contact details for a .cpб domain name within three days of the day of receipt of the request.

(5) RNIDS, on a registrant's request for privacy protection of .cpб domain name contact information, must disable access to the contact information for the .cpб domain name for which the request was submitted.

(6) RNIDS must allow appropriate government bodies access to all information about .cpб domain names registered within the .cpб IDN ccTLD registry in accordance with law or court orders issued in accordance with law.

Duration of registration of .cpб domains

Article

11

(1) .cpб domain names are registered for a period of between one and 10 years with the possibility of renewing the registration.

(2) .cpб domain names are registered and renewed for whole years.

Changing .cpб domain registration information

Article

12

(1) The registrant, or a person authorised by him or her, submits a request to change .cpб domain name registration details to RNIDS through the accredited registrar responsible for the .cpб domain name.

(2) RNIDS issues confirmation of receipt of the request to change .cpб domain registration information.

RNIDS must activate changes to .cpб domain information within no more than 24 hours of confirming receipt of the request to change .cpб domain name registration information.

(5) Changes to registration information for a .cpб domain name are registered when RNIDS enters the changes into the WHOIS database of the .cpб ID ccTLD registry.

(5) RNIDS has the right to change all details of an existing .cpб domain name on the basis of a legally binding judicial decision, the final decision of an arbitration council in disputes concerning .cpб domains or if the change is necessary for maintaining the technical stability of the Internet.

Renewing a .cpб domain

Article

13

(1) The registrant, the administrative contact or the technical contact may submit a request to renew the registration of a .cpб domain name to RNIDS through the accredited registrar responsible for the .cpб domain name.

(2) RNIDS issues confirmation that it has received the request to renew the registration of a .cpб domain name.

(3) RNIDS must renew the registration of a .cpб domain name within no more than twenty-four hours of confirming receipt of the request to renew the registration of the .cpб domain name.

(4) The renewal of the registration of a .cpб domain name is registered when RNIDS enters the renewal into the WHOIS database of the .cpб IDN ccTLD registry.

- (5) It is also possible to renew the registration of .cpб domain names before their expiry, but the maximum total number of years for which a .cpб domain can be registered is 10 years.
- (6) When the registration period expires, RNIDS deactivates the .cpб domain name.
- (7) After an additional 30-day redemption period, the .cpб domain name will no longer be registered.
- (8) If the registrant renews the registration during the redemption period, the start of the renewed registration is counted as the first day after the expiry of the previous registration period.

Transferring a .cpб domain between accredited registrars

Article

14

- (1) Accredited registrars must give the registrant the right to choose another accredited registrar (hereinafter: new accredited registrar) for the .cpб domain names which the registrant has registered or renewed.
- (2) The accredited registrar must cooperate with the registrant, the new accredited registrar and RNIDS during the .cpб domain name transfer process.

Transferring the registration of a .cpб domain

Article

15

- (1) A registrant may submit a request to transfer the registration of a .cpб domain to a new registrant to RNIDS through the accredited registrar responsible for the domain.
- (2) Alongside the .cpб domain name registration transfer request, the original registrant must also send the accredited registrar a document confirming their identity and a certified statement confirming that they agree to transfer the rights to the new registrant and authorising RNIDS to carry out the transfer.
- (3) RNIDS issues confirmation of receipt of the .cpб domain name registration transfer request.
- (4) RNIDS must activate .cpб domain registration transfer within no more than 24 hours of confirming receipt of the request to transfer the registration of the .cpб domain.
- (5) The .cpб domain name registration transfer is registered when RNIDS enters the transfer into the WHOIS database of the .cpб IDN ccTLD registry.
- (6) RNIDS will transfer the registration of an .cpб domain name only after the delivery of the documents in paragraph 2 and after the new registrant supplies consent to accept the registration of the .cpб domain name.
- (7) In transferring the registration, the registration of the .cpб domain by the previous registrant is revoked and the registration of the new registrant commences, the moment the change is entered into the WHOIS database for the .cpб IDN ccTLD registry.

Payment for .cpb domain registration services

Article

16

(1) A fee is payable for .cpb domain name registration services as defined in article 4 of these General Terms.

(2) An accredited registrar pays a fee to RNIDS for .cpb domain registration services on the submission of appropriate requests to RNIDS, and in accordance with the General Terms of the contract on the operation of accredited .cpb domain registrars and the RNIDS Price List.

Revocation of .cpb domain registration

Article

17

(1) The registration of a .cpb domain name may be revoked if:

- RNIDS ascertains that the registrant provided incorrect or incomplete registration information in his or her application to register or amend a .cpb domain, or did not announce changes to .cpb domain registration information in timely fashion, except when incorrect or incomplete information was an obvious mistake;
- it has not been possible to establish contact with a .cpb domain name registrant or administrative contact 45 days after the first attempt of RNIDS to establish contact, or if the registrant, leaving his or her address, or registered office in Serbia, does not appoint as the administrative contact a person who has an address, or registered office, in Serbia;
- the registrant submits a request to cancel the .cpb domain name using the RNIDS form and a certified statement confirming that they agree to the cancellation, and this is done on receipt of the statement and document confirming the registrant's identity;
- the registrant does not renew the .cpb domain name by the expiry of the redemption period as per article 13 paragraph (7);
- RNIDS transfers the registration of the .cpb domain pursuant to article 15, and at the moment the right is transferred;
- RNIDS-designated arbitration orders the revocation or transfer of the registration of the .cpb domain, on the day set by that decision;
- a competent court orders the revocation or transfer of the registration of a .cpb domain, on the day set by that decision;
- the registrant ceases to exist without a legal successor.

(2) The registrant, and the accredited registrar, has no right to a full or partial return of fees for the previous or renewed .cpb domain name registration when registration is revoked for any of the reasons in paragraph (1) of this article.

Resolving disputes relating to the registration of .cpb domains

Article

18

(1) RNIDS is not authorised to resolve disputes relating to registered .cpb domains, and directs parties to resolve disputes before the Committee of the Serbian Chamber of Commerce in line with the Rules of Procedure for Proceedings for the Resolution of Disputes Relating to the Registration of .rs Domains, which are applied as appropriate.

(2) In submitting an application for the registration of a .cpb domain within the .cpb IDN ccTLD registry, and hence accepting these General Terms, the registrant explicitly agrees to

participate in proceedings before the Committee if a third party submits an application for the resolution of a dispute against the registrant in accordance with the Rules of Procedure mentioned in paragraph 1 of this article. The registrant also declares that he or she will accept the decision of the arbitration council.

Language, authority and applicable law

Article

19

(1) These General Terms were compiled in the Serbian language. If the text of these General Terms is available in another language, the authoritative version shall be that in the Serbian language.

(2) RNIDS, the registrant and the accredited registrar shall endeavour to resolve any possible disputes relating to the registration procedure through talks and peaceful means. If this is not possible, the court in Belgrade will have jurisdiction and the applicable law shall be the law of the Republic of Serbia.

Amendments and supplements to the General Terms

Article

20

(1) RNIDS reserves the right to amend and supplement these General Terms, and must suitably inform registrants and accredited registrars of these amendments at least 15 days before the date that these amendments enter into force.

Entry into force and commencement of implementation of the General Terms

Article

21

These General Terms enter into force on the day of their approval by the Conference of Co-founders of RNIDS, and shall be implemented from the commencement of registration of .cpб domains within the .cpб IDN ccTLD registry.

Belgrade,
24th December 2011

Chair of the Conference of Co-founders

Vojislav Rodić
